

Potentially Hazardous Plants

This list includes many plants which may be poisonous or hazardous to your pets, but does not include all the plants. To obtain additional information, check with your local poison control center, veterinary school, or toxics expert. These plants have been reported as having systemic effects on animals and/or intense effects on the gastrointestinal tract. Please note that this plant list is not meant to be all-inclusive, but rather a compilation of the most frequently encountered plants.
